1. Claims 1-20 are allowed.

The prior art of record does not teach the claimed invention including a fluid control system for selectively varying a composition of a fluid dielectric to dynamically modify a frequency response of a resonant cavity (Claim 1), or selectively modifying a composition of fluidic dielectric in response to a control signal to produce a second frequency response different from a first frequency response (Claim 11).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
